# Product introduction

## 3 in 1 Led Light Therapy

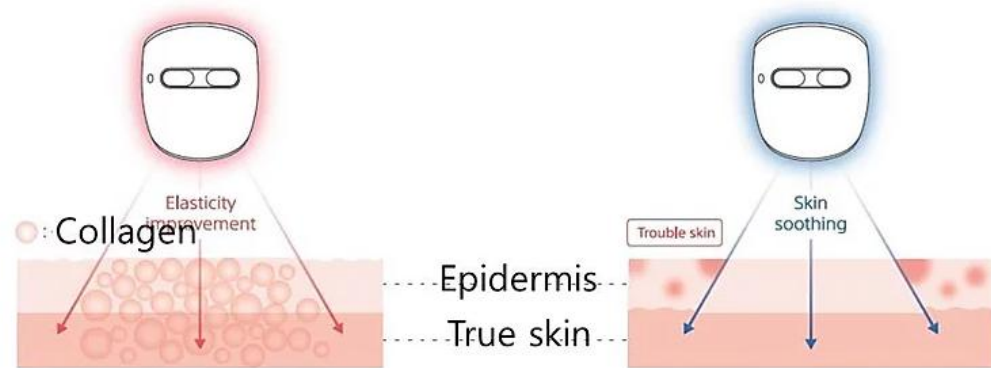

**Red Light** 620-640nm (wrinkle removal, moisturizing)

**INR Light** 820-850nm (open pores)

**Blue Light** 465-475nm (anti-inflammatory, acne removal)

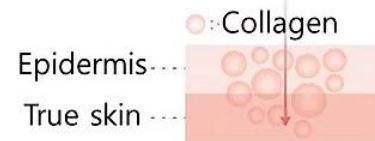

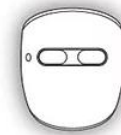

### RED + NIR

It induces skins collagen production and improves elasticity, eliminates dullness, is effective in pore management, and provides

### BLUE

Gives skin a soothing effect, improves flushing and various problematic skin, prevents skin damage and helps protect skin

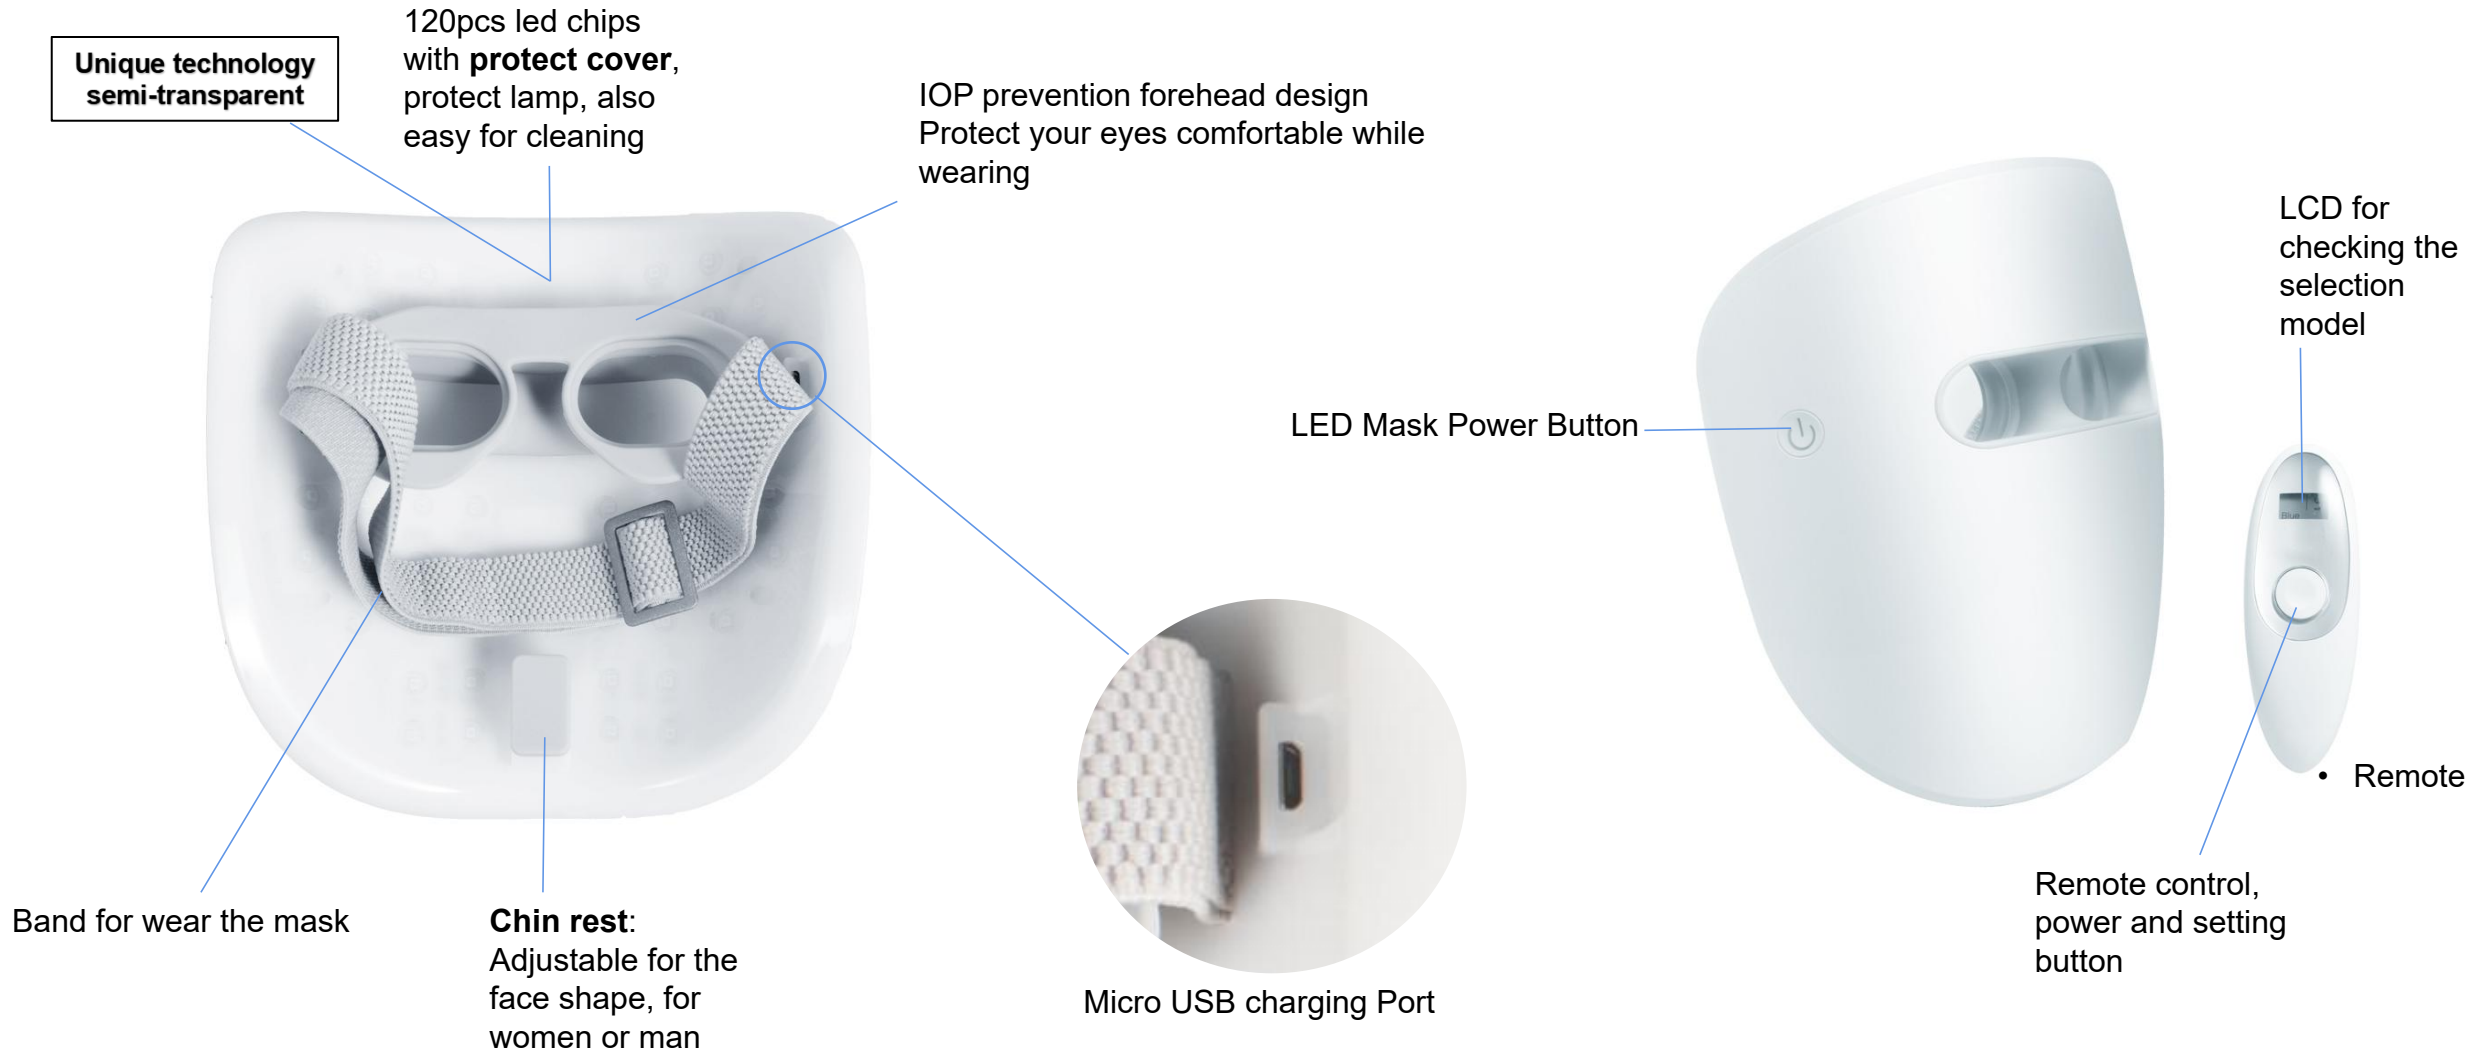

### Near Infrared LED

One of the core technologies of our LED MASK is NIR LED, which activates collagen by penetrating the skins dermal layer!

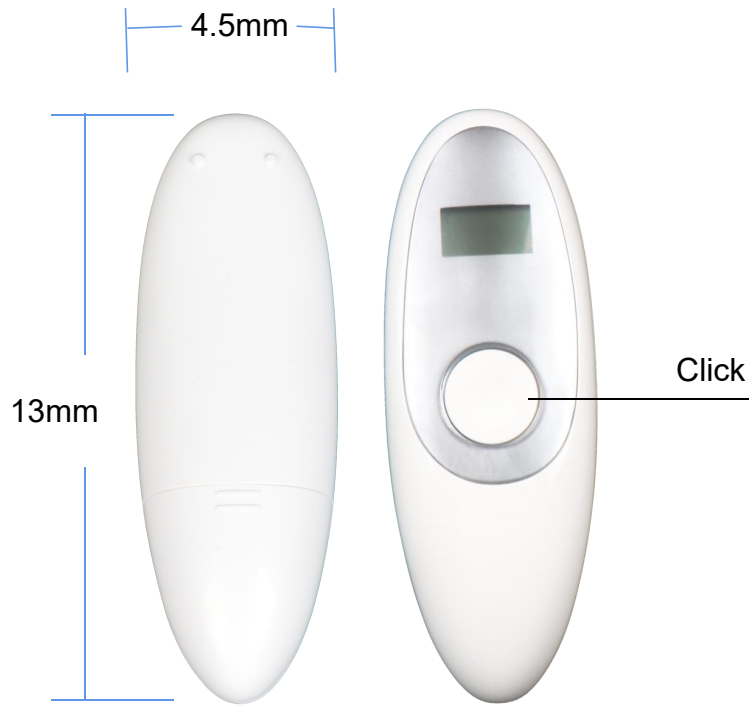

It is called the light of life that helps improve skin in various forms

,the light cannot be seen with the naked eye and can only be seen with a special camera
